

February 18, 2010

TO ALL BIDDERS CONCERNED:

SUBJECT: Project No: F-LC35 (195)
7800 South BINGHAM JUNCTION BLVD, MIDVALE CITY
INTERSECTION IMPROVEMENT AND SIGNAL INSTALLATION
Addendum No. 2

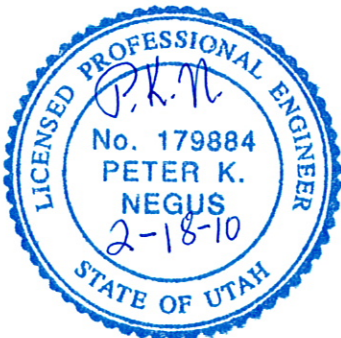

To Whom It May Concern:

We are submitting the following changes to the subject project.

1. To clarify comments made at the Mandatory Pre-Bid Meeting regarding Roadway Excavation: excavated soils are to be disposed of in a RCRA Subtitle D landfill as specified. The Bingham Junction South repository meets this requirement. Please contact Mark Murdock at Arbor Gardner 801-456-4140 for information. Midvale City will not sign as the generator.
2. To clarify comments made at the Mandatory Pre-Bid Meeting regarding the Environmental Document: Midvale City requires two weeks to review and accept the contractor's Special Inspector, Health and Safety Plan (HASP) and the Material Management Plan (MMP) prior to commencing operations. The HASP shall be reviewed by OSHA prior to Midvale City review. The Special Inspector shall provide weekly summary reports to Midvale City during operations as part of the MMP.
3. Clean Import Fill Material shall be tested using the "EPA Action level" for Jordan Bluffs East – Lead 500 ppm and Arsenic 70 ppm. One test is required per every 1,000 cubic yards imported. Clean Import Fill Material requirements apply for all imported soil materials, regardless of type needed outside of the edge of new pavement. All other imported fill materials under new or existing asphalt pavement are considered capped. Contact Ray Limb, Midvale City (801) 567-7287 or rlimb@midvale.com for information.

*****ADDENDUM IS AVAILABLE AND MAY BE DOWNLOADED FROM THE
UDOT WEBSITE AT <http://eprpw.dot.utah.gov>**

**RECEIPT OF THIS ADDENDUM MUST BE ACKNOWLEDGED WHEN YOU SUBMIT YOUR
BID. YOUR BID WILL BE DECLARED NON-RESPONSIVE IF YOU DO NOT
ACKNOWLEDGE THIS ADDENDUM.**

Sincerely,

Peter Tang
